

Social and environmental commitment of UNIC tanneries

Italian tanneries, members of **UNIC**, have subscribed an European agreement with the Employees Trade Unions concerning the respect of **human rights** in the workplace and the **responsible** use of natural and environmental resources. This "declaration of social and environmental commitment" is an element of **excellence** towards consumers in the international market.

Since 1999 **UNIC** Italian tanneries have adopted their own **ethical** code and they have acquired many certifications of quality, environment, product and origin.
